PRODUCT BENEFITS:

Create a modern lighting solution with our Indirect Drywall Channel, designed to provide a soft, ambient lighting effect. The mud-in design ensures a clean, built-in finish with no visible mounting hardware, while the high-quality aluminum construction provides durability and secure LED strip placement. Easily cut to size on-site and joined with connection bars, this channel offers flexible mounting options for both wall and ceiling installations. Paintable to match any design. Perfect for applications like stair lighting, nightlight features, and wayfinding. This channel is a versatile and elegant choice for your next lighting project.

Channel only. LED ribbon and driver sold separately. The driver must be remotely located.
